In the midst of the COVID-19 outbreak, FCC Chairman Pai has called on broadband providers to take the "Keep Americans Connected" Pledge. On this webinar, ACA Connects' staff and counsel will discuss the pledge, as well as other steps that communications providers are taking to protect their customers and their networks during this epidemic. We will also discuss reactions to the pledge, including additional demands that policymakers have made on the industry. This webinar will help ACA Connects members evaluate the steps they are taking to confront the COVID-19 epidemic, and to consider what more they should be doing. There will be an opportunity to ask questions.

The webinar recording and presentation slides will be available in the ACA Connects Members' Lounge after the presentation. If you should have any questions or would like further explanation on a topic that was covered, please reach out to us and we will gladly follow-up with you directly.
